I-HUB FOR ROBOTICS AND AUTONOMOUS SYSTEMS INNOVATION FOUNDATION

CORRIGENDUM of TENDER FOR THE SUPPLY OF GPU-EDGE-CLOUD-SYSTEM

SECTION 1. INVITATION FOR BIDS / NIT

Date: 28th February 2025

IFT No.: I-HUBRASIF-ARTPARK/Purchase/2025/01

Pg 3, Item 3:

Existing: The Quote should come only from the Indian Original Equipment Manufacturer (OEM) or their Indian Authorized Distributor (AD)

Modified: The Quote should come only from the Original Equipment Manufacturer (OEM) or their Indian Authorized System Integrator/Partner.

Pg 5, Item 20

Existing: The Bidder should belong to either Class-1 or Class-2 suppliers distinguished by their "local content" as defined by recent edits to GFR. They should mention clearly which class they belong to in the cover letter.

Modified: The Bidder should indicate if they belong to either Class-1 or Class-2 or none, distinguished by their "local content" as defined by recent edits to GFR. They should mention clearly which class they belong to in the cover letter. They should indicate the percentage of "local content" in their proposed solution.

Pg 5, Item 23

Existing: Purchase preference as defined by the recent edits to GFR (within the "margin of purchase preference") will be given to the Class-1 supplier.

Modified: Purchase preference as defined by the recent edits to GFR (within the "margin of purchase preference") will be given to the Class-1 supplier, provided all the technical criteria are met.

Pg8, Item 6

Existing: 100% payment as per PO will be released against delivery, inspection, successful installation, commissioning, and acceptance of the equipment at I-HUB FOR ROBOTICS AND AUTONOMOUS SYSTEMS INNOVATION FOUNDATION Bengaluru in good and functional condition and to the entire satisfaction of the Purchaser

Modified: 100% of the upfront down payment as per PO will be released against delivery, inspection, successful installation, commissioning, and acceptance of the equipment at I-HUB FOR ROBOTICS AND AUTONOMOUS SYSTEMS INNOVATION FOUNDATION Bengaluru in good and functional condition and to the entire satisfaction of the Purchaser.

Pg 8, Item 7

Existing: The total solution as per the agreed bill of materials must be supplied within 4 weeks after receiving a firm PO from I-HUB FOR ROBOTICS AND AUTONOMOUS SYSTEMS INNOVATION FOUNDATION. The installation, commissioning and acceptance must be completed within a week after supply of the equipment.

Modified: The total solution as per the agreed bill of materials must be supplied within 8 weeks after receiving a firm PO from I-HUB FOR ROBOTICS AND AUTONOMOUS SYSTEMS INNOVATION FOUNDATION. The installation, commissioning and acceptance must be completed within a week after supply of the equipment.

Pg 8, Item 9

Existing: Liquidated Damage: As time is the essence for this procurement, hence the ordered materials are required to be delivered and installed in all respects within the stipulated period in the purchase order failing which penalty for late delivery and installation will be imposed at the rate 1% of the total order value per week or part thereof for the delayed period subject to maximum of 10% of the total order value and this liquidated damage will be deducted during the payment of the invoice / bill of the supplier. Earliest / expected delivery period should be clearly indicated in the technical bid.

Modified: Liquidated Damage: As time is the essence for this procurement, hence the ordered materials are required to be delivered and installed in all respects within the stipulated period in the purchase order failing which penalty for late delivery, I-HUB FOR ROBOTICS AND AUTONOMOUS SYSTEMS INNOVATION FOUNDATION and installation will be imposed at the rate 0.5% of the total order value per week or part thereof for the delayed period subject to maximum of 10% of the total order value and this liquidated damage will be deducted during the payment of the invoice / bill of the supplier. Earliest / expected delivery period should be clearly indicated in the technical bid.

Pg 9, Item 2

Existing: It is to be noted that a maximum of two weeks will be available (after Installation & Commissioning) to the bidder to conform to this acceptance test criterion set out.

Modified: It is to be noted that a maximum of four weeks will be available (after Installation & Commissioning) to the bidder to conform to this acceptance test criterion set out.

Pg 9, Item 1.1

Existing: 1.1 Installation: The total solution as per the agreed bill of materials must be supplied within 4 weeks after receiving a firm PO from I-HUB FOR ROBOTICS AND AUTONOMOUS SYSTEMS INNOVATION FOUNDATION. The installation, commissioning and acceptance must be completed within a week after supply of the equipment.

Modified: The total solution as per the agreed bill of materials must be supplied within 8 weeks after receiving a firm PO from I-HUB FOR ROBOTICS AND AUTONOMOUS SYSTEMS INNOVATION FOUNDATION. The installation, commissioning and acceptance must be completed within a week after supply of the equipment.

Pg 18, Item 12.1

Existing: 12. Period of Validity of Tenders

12.1 Tenders shall remain valid for 90 days after the deadline for submission of tenders prescribed by the Purchaser, pursuant to ITB Clause 15. A tender valid for a shorter period shall be rejected by the Purchaser as nonresponsive.

Modified: Tenders shall remain valid for 60 days after the deadline for submission of tenders prescribed by the Purchaser, pursuant to ITB Clause 15. A tender valid for a shorter period shall be rejected by the Purchaser as nonresponsive.

Pg 24, Item 27.1

Existing: 27. Performance Security

27.1 The successful Tenderer shall furnish the performance security in accordance with the Conditions of Contract, in the Performance Security Form provided in the tender documents or in another form acceptable to the Purchaser. The EMD will be replaced with Performance Bank Guarantee of 5% of Contract value at the time of signing Contract. The PBG will cover the period of all obligations from the supplier (Warranty, AMC, etc).

Modified: 27.1 The successful Tenderer shall furnish the performance security guarantee in accordance with the Conditions of Contract, in the Performance Security Form provided in the tender documents or in another form acceptable to the Purchaser. The Performance Security Guarantee will be 5% of Contract value at the time of signing Contract. This will cover the period of all obligations from the supplier (Warranty, AMC, etc).

Pg 35, Section V

SECTION V: SCHEDULE OF REQUIREMENTS

(To be inserted in the Tender Documents by the Purchaser, as applicable. The Schedule should cover, at a minimum, the required items, quantities, services, delivery period(s) and performance security guarantee (PSG).)

Part - I

Sl.No	Brief Description	Unit	Quantity	Delivery schedule	PSG in INR
1.	GPU-EDGE-CLOUD-SYSTEM	1 Nos			

The specifications for the Robotic Arms are detailed below (Annexure I):

Corrigendum to Section VI: Technical Specifications

	Component	Description
1		The GPU-EDGE-CLOUD-SYSTEM will consist of a GPU Server (with 8x NVIDIA H200 GPU), a high performance switch fabric, a high performance flash based storage server and any other ancillaries (racks, cables, integrated UPS-batteries-cooling etc). needed to get the GPU-EDGE-CLOUD-SYSTEM up and running smoothly.
5		The Storage Server and GPU Server should be well integrated. Prior history of supplying a similar integrated solution to other customers and/or having both servers from the same OEM will be preferred. This is to ensure that customer has a seamless integration of the solution and support.
6		Proposed solution should also indicate the needed Civil/Power work for power/cooling needed to accommodate the edge-cloud system
7		Proposed solution should cover cooling as well as UPS with a battery backup time of at least 2 hours
13	OS Storage	minimum 2 x 1.92GB NVME
17	Power Supply	Minimum N+2 Titanium power supply with consumption of up to 12.5KW. Each unit should have min of 3k W (200—240 VAC or 240 HVDC)
18	Network /Interconnect Fabric	At least 1 dual port 10/25 GE Adapter, 1 embedded dual port 10G Base T adapter, at least 4 Nos. of 400G Adapter (like NDR) and 2 USB ports.
20	Operating system	RHEL with enterprise support from OEM
21	Software and Libraries	AI training, inference, HPC libraries - open source preferred. Indicate optional commercial software with licensing costs as a separate annexure.

22	Warranty	3 years On-site comprehensive warranty with 24x7x365 support with next business day response and hard disk media retention
23	Ancillaries	Racks, cables, with integrated UPS-Cooling-Battery (at least 120mins) etc as needed to get the system deployed and operational.
33	Disk Capacity	At least 500TB of useable capacity using NVMe SSDs only. Advanced data protection methods in the RAID solution. Should tolerate simultaneous failure of any two disks in a single RAID group. The capacity should be extensible to 1000TB via a separate server.
38	Factory integration	Must be integrated in factory and tested before shipping to our location.
39	Master Node	An x86_64 server with minimum of 32Cores and at least 64GB DRAM and at least one 400Gbps NDR port
