I-4AM '24 Robotics Challenge

I-4AM CPDM 2024 is the third in a biennial series of conferences held in India, conducted on **11 - 12 January** by the **Centre for Product Design and Manufacturing (CPDM), Indian Institute of Science, Bengaluru**. I-4AM brings together all **stakeholders in manufacturing and Industry 4.0**, to deliberate on the nature, needs, challenges, opportunities, problems and solutions in this transformational area.

The I-4AM series was initiated under the auspices of the Common Engineering Facility Centre (CEFC) on I4.0India@IISc (IISc Smart Factory) within the SAMARTH Udyog Bharat 4.0 programme of Ministry of Heavy Industries, Government of India.

The conference has Invited/keynote presentations from eminent international experts and practitioners; Presentations of refereed papers as podium presentations; Industrial sessions to present perspectives from industry and studies in practice; Panel discussions; and invited start-ups and interactive sessions with entrepreneurs.

The I-4AM '24 Robotics Challenge took place at the Department of Design & Manufacturing (formerly the Centre for Product Design & Manufacturing), IISc, from **January 10th to 12th, 2024, with sponsorship from ARTPARK.**

The department welcomed participation from Bachelor's, Master's, and PhD students across India.

The objective of the competition was to construct a maze-solving robot using an Arduino-compatible kit. Teams were required to assess the performance of their assembled robots within the allocated time by autonomously navigating from the starting point to the endpoint, minimizing collisions with the maze walls. The evaluation criteria included successful maze-solving, completion time, number of collisions, documentation of the assembly and algorithm, and the final presentation.

Prizes:

- **Winner:** Rs. 50,000/-
- **1st Runner-Up:** Rs. 30,000/-
- **2nd Runner-Up:** Rs. 20,000/-
