IndiaSkills State Level Competition 2024

The Ministry of Skill Development & Entrepreneurship, in collaboration with the NSDC, is hosting "IndiaSkills 2023-24," a nationwide skills Olympiad, is gearing up to host "IndiaSkills 2023-24," a nationwide skills Olympiad spanning across 50 categories, out of which Autonomous Mobile Robotics is one. This event aims to highlight the exceptional talents across the nation, offering a platform for every Indian to demonstrate their unique skills. The competition progresses through various stages at the district, state, zonal, and national levels, ultimately providing the opportunity to represent the country at the esteemed **WorldSkills Competition in Lyon, France from 10th to 15th September 2024**. **Hosted by ARTPARK and Sakar Robotics**, the Karnataka state-level competition held at ARTGarage (ARTPARK) on **March 12th and 13th, 2024**, 15 selected students engaged in comprehensive training and testing sessions to enhance their robotics skills.

On March 12th & 13th, selected students participated in a training session of **state-level competition focused on Autonomous Mobile Robotics. The program covered theoretical and practical elements, utilizing Robotics kits such as FTC (First Tech Challenge). The two-day event culminated in a testing session**, requiring a 250 sq. feet area for the testing arena. Students from Karnataka demonstrated great enthusiasm and actively participated in the event, enhancing their skills in robot building.
